Austin, TX  
(703) 597-1993  
[bob@doolings.org](mailto:bob@doolings.org)

### Team Seraph — Co-Founder and VP of Services

April 2023 - Present (Remote)

Providing assurance services for organizations' privacy commitments.

### Equinox Risk Advisory, LLC — Founder; Security Advisor

July 2022 - Present (Washington DC metro)

Providing holistic security and privacy program assessments, cyber risk quantification (CRQ/ FAIR); fractional security leadership, and risk mitigation.

- Establishing quantified risk management programs - enabling prioritization, budgeting, and better informed decision-making.
- Kickstarting cybersecurity metrics programs.
- Training executive stakeholders and technical team members on IR policy, processes, and technologies.
- Developing methodical privacy assessment frameworks.

### Redox, Inc. — Director of Security Risk

August 2019 - May 2022 (Remote)

Established and matured the cyber risk management function for a rapidly growing, cloud-based healthcare data exchange.

- Lead security incident management, third party risk, and vulnerability management in conjunction.
- Managed risk assessments, with expected value (EV) outputs.
- Partnered with CISO in strategic planning, budgeting, hiring, team development, and project prioritization.
- Acted as Interim CISO during outages.

### Praetorian — Practice Manager

December 2013 - January 2018 (Austin, TX)

Trusted advisor to Fortune 1000, high tech startups, and critical infrastructure providers. Executed and managed a wide variety of security assessment and incident response projects, focused on enabling clients to identify, prioritize, and remediate technology risks across their enterprise.

- Led and executed full scope red team engagements, collaborative red / blue team services, regulatory compliance gap analyses, and holistic security program assessments.

### SUMMARY

Expertise in cyber security and privacy risk management.

Blends methodical risk assessments with deep technical knowledge.

Excels in roles that combine business and technical acumen.

### AREAS OF FOCUS

Incident detection and response

Holistic security program assessments

Privacy assessments

Penetration testing and adversarial emulation

Operational technology (OT) and critical infrastructure

Cyber insurance

- Managed and mentored a team of security engineers and consultants.
- Managed multiple concurrent engagements, from scheduling through technical execution, and ensuring quality of deliverables.
- Contributed to recruiting, interviewing, and hiring decisions.
- Led internal information security initiatives, policies and procedures.

## **SANS Institute — Author, GIAC Exam Development**

May 2011 - July 2013 (Remote)

Created and reviewed content for ISO/ANSI-certified cybersecurity exams.

## **DISD, LLC — Founder; Security Advisor**

December 2009 - May 2022 (Austin, TX)

Provided freelance services specializing in technical security assessments, incident detection and handling, and risk assessments.

- "Full-stack hacker": executed white box and black box penetration tests of all types.
- Managed client relationships and engagements, end-to-end: business development, scoping, scheduling, project execution and management, quality assurance, and account management.
- Provided advisory services for clients on diverse topics such as regulatory compliance, data classification, and cloud migrations.
- Managed budgeting and billings - leading to average YoY revenue and profit growth of 41% and 44%, respectively.

## **Texas DIR — Sr. Information Security Consultant**

October 2008 - January 2011 (Austin, TX)

Executed self-directed penetration tests for Texas state agencies, municipalities, universities, and utilities - attempting to infiltrate in-scope networks, systems, and applications. Presented findings, demonstrated exploits; discussed risks and prioritized recommendations.

## **Symantec Corporation — Sr. Information Security Engineer**

June 2006 - August 2008 (Remote)

Security specialist on a SIEM product delivery team.

## **Symantec Corporation — Network Security Analyst, MSS**

November 2003 - June 2006 (Washington, DC)

Identified, escalated, and managed security incidents in a 24x7x365 SOC.

## **Arthur Andersen / Protiviti — Technology Risk Consultant**

June 2001 - November 2003 (Washington, DC)

Performed audit and analysis of clients' security controls to help ensure integrity of financial statements.

## **CREDENTIALS**

CEH (Certified Ethical Hacker)

CISSP #121592 – (ISC)2

GAWN (Wireless Assessments)

GCFE (Forensic Examiner)

GCFW (Firewall Analyst)

GCIH (Incident Handler)

GNFA (Network Forensics)

GSEC (GIAC Security Essentials)

GSNA (Systems & Network Auditor)

GWAPT (Web App PenTesting)

Open FAIR Certification

SANS Advanced Penetration Testing & Exploit Development

SANS Automating Information Security with Python

## **EDUCATION**

James Madison University -  
BBA: Finance; MIS

Dual major focused on economics, finance, and information security

## **EXTRACURRICULAR**

University of Texas at Austin -  
Contributing Lecturer in the  
Computer Science Department

Amateur / Ham radio ([KI5QKF](#))
